

## **NOTICE OF MCC/PCRC SYSTEM CHANGE**

By this notice we are formally advising you that, effective 11 March 2010, the Physician Credentials Registry of Canada (PCRC), formerly operated as a division of the Medical Council of Canada (MCC), is fully integrated into the MCC. If in the course of document sharing in your PCRC-Online account, you placed limitations on the information and documentation that could be shared with the MCC Credentials and Registrations department, you will be prompted to change your authorization appropriately in light of this integration. Prompting will occur when you log into your PCRC-Online account. If you have any questions with respect to this notice, please submit a communication through your PCRC-Online account or contact the [PCRC service desk](#).
